

Login trading account through 2FA

What is Two Factor Authentication (2FA) ?

Two Factor Authentication (2FA) is a security measure that AFG Securities is implementing to enhance the security of online trading. When you login to your online trading account, you will receive 6 digits One-Time Password (OTP) by *one of the two methods stated below. Clients can only trade after applying the OTP on the online trading platform.

* OTP will be sent to clients' registered email address in AFG Securities ; OR

Clients can also use the 2FA App – 'hee Token' to obtain digits OTP.

How to login via mobile app

1. Install trading platform Apps [AFG Trader 及 heeToken]

2. First Login :

(i) account registration : [please go to (ii) if you have already registered]

Open AFG Trader

Click First login

Enter your ID number and Account number, choose heeToken to receive OTP then follow the instructions (create your username and password) to complete the account setup.
